

Improve Fact Fluency with these Games of Numbers and Strategy!

NEW

Use all 5 tiles & score an extra 30 points!

Place a yellow tile on a +10 and earn 10 extra points!

Each Set Includes 3 Games!

Sum It Up!

Sum It Up!

by Becky Duprey

These classroom-tested sets include everything you need to play three different games. In each game, players place tiles in a row on the board horizontally or vertically—just be sure they all add up to the target number for that game. Earn points based on the number of tiles you place; build in two direction or land on a +10 square to score even more! Children will love playing this challenging, fun game over and over again. Each set includes three game boards, three tile sets, three drawstrings bags for storage, rules, and score sheets. For 2–4 players.

Sums of 10, 20, and 100

Set includes three games.

- Sums of 10—Place pieces in a row to sum to 10.
- Sums of 20—Place pieces in a row to sum to 20.
- Sums of 100—Place pieces in a row to sum to 100.

Grade 1 and up
