Welcome to Didax 2025

We are excited to introduce our 2025 product lineup, reaffirming our strong commitment to our dealer network with the addition of 50+ new items this year!

Inside this catalog, you'll find a hardworking, high-value collection of proven and inspiring educational resources. These products are designed to make learning engaging, effective, and fun—offering the tools and solutions your education customers need to boost learning outcomes.

The Didax lineup of hands-on Pre-K–12 teaching and learning manipulatives enhances math curriculum from foundational numeracy to advanced algebra and geometry. Additionally, you'll find an array of games and manipulatives designed to support early literacy instruction and social-emotional learning, ensuring you have even more ways to meet educators' needs.

Looking for New Products? See Highlights on Pages 2–3!

We've added new manipulatives to help young learners master counting, assist teachers in managing small group math intervention, and we're introducing our Pre-K & TK Math Activity Kits. These kits will captivate preschoolers, and for teachers, there's a lesson book covering 20 critical learning concepts.

Also new this year, an expanded selection of dice options, bulk purchasing options for Unifix® cubes, and a new and improved Number Path Floor Mat. Be sure to check out our two innovative tools, Multiplication Fact Fluency Cards and the Multiplication Base Ten Frame. These products make multiplication and division tangible through hands-on exploration and help students build concrete understanding while staying engaged with simple, fun designs.

Our latest products are designed to inspire and empower you to engage both current and prospective customers who are eager to enhance teaching and learning experiences. Look for the "New" icon next to all these items.

Thank you for your continued support of math and active learning.

Linda Andries

Head of Product, Sales & Marketing
Didax, Inc.

Count on Didax for *Innovative Products, Strong Partnerships, & Superior Support!*

Thank you for your partnership as we work together to support students, teachers, and parents everywhere. With renewed emphasis on building students' math skills and knowledge, it's more important than ever to provide parents and educators with innovative, value-packed manipulatives and instructional resources so they can meet their goals for effective, engaging, and yes, fun learning opportunities.

Your success is our priority. Like organizations in all industry and business sectors, tariffs are a reality in our market at the present time. We're working strategically to diversify our manufacturing resources so we can provide the best pricing possible for our dealers.

We're also continually taking in greater stock for the products you need so we can reduce orders and ensure products are delivered when you need them. We're tracking curriculum changes, standards, and requirements so that our products align directly with teaching and learning priorities. For you, that means you can offer the solutions educators ask for and need as instruction evolves. As always, your success is our priority.

Here's to success and partnership for learning in the months ahead.

Your Didax Team

New Products

New Products & Opportunities to Build Math Mastery!

Your colleagues at Didax are always on the lookout for products and resources that will make math easier to teach and more fun to learn! This year, we're bringing you new resources to enrich small group intervention and teaching, along with a new lineup of manipulatives, professional books, and creative solutions to boost learners' confidence in math facts and operations!

A Quick Reference Guide to Didax Products

The charts on this and the following two pages give you an at-a-glance reference to Didax products and where they “fit” into curriculum concepts and topics.

- **Search vertically** by core math topics to find products that support specific areas of math instruction.
- **Scan horizontally** across the chart to see where specific Didax products can support teaching and learning in your classroom.

6 Personal & Emotional Skills Games

Ideal for engaging students in Social-Emotional Learning and discussion of complex issues, 6 Personal and Emotional Skills Board Games develop children's social awareness in a vibrant, enjoyable format. These fun games teach essentials for learning and life: Getting On, Good to be Me, Changes, Keeping Calm, Going for Goals, and Say NO to Bullying. The games have been designed so that students give answers based on personal experience. Instructions, 24 counters, and die included.

Grades 1-5. 500045 • \$49.99

6 Stay Safe and Healthy Games

These exciting board games: House of Hazards, Stop the Spread, Firewise, Road Safety, Healthy Living & Eating, and Social Media promote discussion and allow pupils to reach informed decisions, helping them to lead safe and healthy lives. Brightly illustrated, dynamic and fun, they ask questions about personal safety and healthy living, with answer cards that allow the pupils to play independently. Ideal for use in any setting as they support the development of cooperation and turn-taking skills. Instructions are printed on the boards and includes answer/information cards.

Grades 1-6. 500049 • \$49.99

Bullies, Victims & Bystanders

Students move along the board, selecting "Bullies," "Victims," or "Bystanders" cards. Children are encouraged to model good behavior on how to overcome bullying. Use the Bullies, Victims & Bystanders game in an effort to understand what it is like to be bullied and how to prevent future incidences of bullying. Game contains one game board (20" square), 54 playing cards, 6 pawns, and a die.

Grades 1-6. 500042 • \$49.99

Social Skills Board Games

There are no right or wrong answers in these unique games. Each game has players discuss the solutions to socially challenging situations. Together, the group decides upon the best action, encouraging all players to communicate and participate. Contains six 12" x 17" game boards, 24 counters, one die, and one spinner.

Didax & Early Childhood

A perfect partnership!

Didax's high-quality manipulatives introduce academic concepts in a playful way, which is an excellent way, so children enjoy learning! Early math experiences should capitalize on children's natural curiosity and interests, and help them to make sense of—or "mathematize"—their world. Exploring, discussing, and playing are key features of any Pre-K math lesson, and students must have ample, rich, engaging materials to work with.

Pre-K & TK Math Activity Kit: Essential Edition

This ready-to-teach kit engages preschoolers in over 22 critical foundational math concepts with 12 different manipulatives. Each manipulative is easy to use, appealing to children, and versatile for teaching multiple foundational concepts. One kit serves 10 children; ideal for individualized instruction or small group settings.

700008 • \$275.00

Jumbo Bears

Introducing Buddy, a unique high-quality counting bear. Students will love doing math with this one-of-a-kind larger-sized teddy bear counter. Big Buddy is ideal for helping younger children sort, count, compare, pattern, add, and more! 60 bears come in purple, blue, green, orange, yellow.

⚠ Small Parts*

Grades Pre-K–2.

60 Pieces

212146 • \$19.99

Sandpaper Numerals, 0–20

Young learners, and any student with special needs, will benefit from the tactile experience of these numerals. Double-digit numerals cards measure 5.5" x 4.25".

Grades K–1.

211211 • \$24.99

1–20 Activity Cards

Math fun with numbers 1–20 in five different ways!

This colorful deck represents the numbers 1 to 20 in five different ways—in numerals, words, dot patterns, ten-frames, and fingers. Use for a variety of fun learning games to develop skills from early counting to operations. Includes activity ideas. Each card measures 2.5" x 3.5". Set of 102 cards.

Grades K–2.

212123 • \$16.99

*See Safety Information on inside front cover for details.

Number Path Floor Mat

This double-sided floor number path is a kinesthetic way to work with numbers 1-10. Students may use or walk on the path with easy-to-read numbers to count forward and backward. Made of durable vinyl for years of active learning. Measures 28" x 96". Suggested activities included.

211213 • \$29.99

12 Feet Long

Giant Two-Color Counters

These oversized two-color counters are bigger, better, and more fun! 8" in diameter, made of thick durable foam. Great for demonstration, active games, and student engagement. 10 pieces.

Grades K-5.

Set of 10

211226 • \$28.99

Ten-Frame Floor Mat

Fill this oversized floor mat with students to build numbers to ten! Or use the giant counters and watch as children master basic number concepts so important to later success in math! Ideal for a variety of activities to teach counting, cardinality, addition, and subtraction. Tactile counters are made of durable thick foam, 8" in diameter, one side red, the other yellow. Tough vinyl mat is 28" x 64". Activity guide included.

Grades K-1.

211212 • \$48.99

Includes 10 Giant Two-Color Counters!

The #1 Cube for Math & Literacy

The unique linear design of Unifix® Cubes allows students to concretely model a wide range of mathematical concepts, such as counting and sorting, patterns, operation work, problem-solving, and graphing. Older students use them for more advanced concepts like multiplication and fractions. These versatile cubes support conceptual understanding and active learning at every level! The size, colors, and feel of our high-quality cubes enhance learners' experience and distinguishes them from ordinary linking cubes. Unifix® Cubes stand alone as high-value manipulatives that ensure students focus on mathematics mastery instead of simply building and playing with cubes!

Jumbo Unifix Cubes Pre-K Math Kit Skill-Building Activities and Games

Our oversized Unifix Cubes are perfect for little hands to have fun sorting, counting, comparing, and building! Activities support critical skills including number recognition, one-to-one correspondence, counting, the concept of ten, math vocabulary, and more. Perfect for small group play at school or fun at home.

Set includes:

- 20 Jumbo Unifix Cubes
- 6 Memory Activity Cards
- 4 Pattern Activity Cards
- 22 Number Cards 1-20

Grades Pre-K-K. 212121 • \$24.99

Included in the kit:

20 Jumbo Unifix Cubes

3 Double-Sided Memory Activity Cards

11 Double-Sided Number Cards (0-10)

4 Pattern Activity Cards

Jumbo Unifix Cubes Pre-K Math Activity Cards

Need multiple sets of cards for centers in your classroom? Purchase the Pre-K Math Activity Cards separately. Set includes 3 double-sided Memory Activity Cards, 4 Pattern Activity Cards, and 11 double-sided Number Cards 0-10.

212122 • \$19.99

Jumbo Unifix Cubes

Oversized connecting cubes specially built for early learning fun. Just like traditional Unifix Cubes, these snap together easily and stay connected, yet can be pulled apart with minimal effort. Includes 20 cubes, 1.5" on all sides, in 4 bright colors. Activity ideas included.

Grades Pre-K-K.
Set of 20

211255 • \$12.99

Unifix® Cubes

Unifix 1-10 Stair

Ideal for reinforcing and teaching number, ordering, and sequencing. Made of durable plastic and measures 8.5" x 8.875". Unifix cubes not included.

Grades K-3.

210838 • \$9.99

Unifix Cubes Hundred Base

Use this versatile tool to model number concepts, base ten, and operations through 100. Teacher's guide includes illustrated activities for number relationships, addition, subtraction, multiplication, and division. Base is 3" x 9" with 10 positions, and includes 40 number label cards (10s, 20s, 30s, 40s, 50s) and a write-on/wipe-off 100-grid card to position behind stacks of cubes.

Grades K-4.

211771 • \$9.99

Write-On/Wipe-Off Unifix Mats

These mats can be used with or without Unifix Cubes to help students understand number concepts and basic operations. One side features a 1-10 stair for counting. On the other side, students start with loose cubes and build a rod. Mats (9" x 12") are heavy vinyl and ideal for use with erasable markers.

Grades K-1.

Set of 10 • 211585 • \$16.99

Unifix 1-120 Number Line

Over 7' long, this track consists of 12 interlocking sections, each numbered in increments of 10. An excellent visual aid for counting, measurement, and addition. Includes teaching notes. Unifix cubes not included.

Grades K-2.

211504 • \$26.99

Unifix Cubes Large Magnets

One hundred, 2" square magnets in 10 colors.

Grades K-3.

2-737 • \$26.99

Unifix Operations Tray

A great tool for demonstrating addition and subtraction problems. To demonstrate addition, fill the slots on each side with Unifix Cubes and then combine the cubes in one channel to see the results. For subtraction, first fill one side and then move some of the cubes to the other side. Includes activity ideas. Tray measures 14.5" x 2.5".

Grades K-2.

211254 • \$7.99

Shown: 11 + 7

Unifix Graphing Base

Children create simple graphs and work with data using this 4" x 9" base. Includes write-on/wipe-off display card and full-color sample strips to identify data.

Grades 1-5.

211088 • \$10.99

Unifix Corner Cubes

Join Unifix Cubes with these Corner Cubes to form right angles. Students can build rectangles, allowing them to explore area, perimeter, and more. Includes 40 cubes and activity guide.

Grades K-4.

211248 • \$8.99

Unifix® Cubes

Unifix Number Hats

Counting, comparing, and knowing number names all become more fun with these cute sports hats, which sit nicely on top of standard Unifix cubes. Students use them to label stacks of cubes with the correct number and to play simple number games. Includes three sets of hats labeled 1–10 (30 pieces) and sample activities.

Grades K–2.

3 Sets (30 Pieces)

211249 • \$9.99

Unifix 1–10 Value Boats

This essential Unifix aid is great for ordering, comparing, estimating, and simple operations. Students fill their “boats” to visualize and represent numbers. Includes ten pieces designed to fit Unifix cubes stacked from 1 to 10 and teaching notes. Unifix cubes not included.

Grades K–1.

211250 • \$9.99

Unifix Cubes for Place Value to 1 Million

These unique Unifix Cubes can be used in supplementary place value activities reinforcing classroom instruction. The box of 70 assorted Unifix Cubes includes ten each of seven colors. Each color is marked one, ten, hundred, thousand, ten thousand, hundred thousand, or million.

Two-Color Counters

Yellow or white on one side and red on the other, these counters are a math resource staple! For younger students, use the counters to count and compare two quantities, represent addition and subtraction problems, create patterns, explore equivalence, and model basic fraction concepts. For older students, the counters can introduce basic probability concepts and be used to create simple algebraic expressions.

Two-color counters can also help students visualize the concept of positive and negative numbers. They can explore addition and subtraction of integers, idea of zero pairs, absolute value, and more.

Subitizing Activity Cards—Numbers 1-10

These cards help children develop number sense by featuring the numbers 1-10 in dot representations. Included are 39 write-on/wipe-off cards (4" x 6") showing dots on one side and the numeral and number word on the back. Activity ideas included.

Grades K-1. 211015 • \$9.99

Numeral Cards

Ten sets of 11 two-sided cards, each packaged in a ziplock bag, with numerals 0 to 10 on one side and the dot pattern on the reverse. Each card measures 2.5" x 3" on durable cardstock.

Grades K-2. 211014 • \$19.99

Ten-Frames

Ten-frames provide a way to help students see numbers within the context of ten. They help them to develop number sense, addition and subtraction skills, and to begin to subitize. Use our manipulatives, games, and activity ideas to teach children the magic of ten!

Didax Ten-Frames Kit

This kit gives you everything you need for a wide variety of activities featuring ten-frames. Kit also includes the resource guide *Working with Ten-Frames*, providing dozens of great activities.

Kit includes:

- Unifix Ten-Frame Cards (2 sets)
- Unifix Ten-Frame Trains (set of 50 trains)
- Unifix Magnetic Ten-Frames
- Write and Wipe Ten-Frame Mats (set of 20)
- Ten-Frame Cards 1-50 (2 sets)

Working with Ten-Frames

by Don Balka and Ruth Harbin Miles

This reproducible activity book includes 50 complete lessons using a variety of ten-frame materials and techniques. Each lesson includes alignment to the standards, step-by-step instructions, and an assessment of student responses. 160 pages.

Grades K-1.

211496 • \$24.99

Rekenreks

20-Bead Rekenrek Group Set

Rekenreks are ideal for counting, addition, subtraction, and early place value. This set includes ten student wooden 20-Bead Rekenreks and a copy of our activity book, *Working with the Rekenrek*. (Note: Set not packaged for retail.)

Grades K-1. 211256 • \$59.99

100-Bead Rekenrek Group Set

This set includes ten student wooden 100-Bead Rekenreks as well as a copy of our activity book, *Working with the 100-Bead Rekenrek*. (Note: Set not packaged for retail.)

Grades 1-3. 211370 • \$119.99

Working with the 100-Bead Rekenrek by Don Balka

These engaging activities use the 100-bead Rekenrek to extend students' understanding of counting, place value, the four operations, and algebraic thinking. Students will make groups of tens and ones, add and subtract within 100, explore multiplication, and more. Each of the 24 lessons is correlated to current standards and includes instructions, assessment questions, and blackline masters. 96 pages.

Grades 1-3. 211267 • \$24.99

Working with the Rekenrek by Don Balka and Ruth Harbin Miles

Using the Rekenrek, these 48 engaging activities help children master early skills such as counting, subitizing, the decomposition of numbers, and more. Each lesson is correlated to math standards. Includes step-by-step instructions, suggested assessment questions, and reproducible blackline masters.

Grades K-1. 211752 • \$24.99

A number path is an effective counting model for young children. Each number is clearly identified by a rectangle and each rectangle can be counted. As students move through kindergarten and beyond, number lines become a key manipulative for counting, operations, fractions, integers, and more. We offer a variety of number paths and number lines for all of these different situations.

Great for
Transitional
Kindergarten
too!

Number Path Pocket Chart

The chart allows you to create number paths with cards showing multiple representations of the numbers 1-10: numbers, words, dots, ten-frames, and hands. Ideal for developing number sense, subitizing, and making tens. Set includes 50 cards and one 18" x 30" pocket chart.

Grades K-2.

211773 • \$29.99

Write-On/Wipe-Off 1-10 Number Paths

Each set includes ten double-sided, 13" x 4" write-on/wipe-off cards.

Beaded Number Line Class Set

Get the whole class involved! This class set includes 20 student 20-bead number lines and 20, 100-bead number lines, as well as a copy of *Working with the Beaded Number Line*, for a wide variety of activity ideas.

Grades K–5. 211902 • \$129.00

Working with the Beaded Number Line

Sixty activities covering counting, skip-counting, place value, rounding, operations, and more. Divided by grade level, with instructions, assessment questions, and blackline masters. 160 pages.

Grades K–5. 211765 • \$24.99

100/120 Boards

100/120 Boards are a fantastic tool for teaching a wide range of math concepts. In early grades this includes counting (forward and backward), skip counting, $\frac{1}{10}$ more or less, and number recognition. The 100 board is also ideal for visualizing place value of tens and ones, comparing numbers, and adding and subtracting. They are a perfect tool to explore numerical patterns like even and odd numbers. In older grades, use the board to visualize the concept of arrays, practice multiplication facts, and show how division is the inverse of multiplication. The board can also be used to identify multiples and factors as well as prime and composite numbers. It may also help students conceptualize estimation and rounding.

Base Ten Class Set

2-K29 • \$119.00

Operations & Fact Fluency

Mastering basic operations is key to math success. Here are a variety of manipulatives, games, and activity resources to get your students adding, subtracting, multiplying, and dividing with ease!

Multiplication Base Ten Frame

The Multiplication and Division Base Ten Frame develops students' conceptual understanding of 1- and 2-digit multiplication and division. Students use a "hands-on" approach to construct an area model using base ten blocks on the frame.

The colorful, durable foam frame shows the factors on the sides and the product in the large center space. The frame can represent problems up to 20 x 20. Activity Guide included supports instruction and learning of simple facts to more complex problems. Base Ten blocks sold separately.

The frame and blocks can represent problems up to 20 x 20. Activity Guide included supports instruction and learning of simple facts to more complex problems.

Frame Only 212021 • \$11.99

Multiplication Base Ten Frame Student Kit

The kit includes blue foam base ten blocks: four 100 flats, twenty 10 rods, and one-hundred 1 cubes.

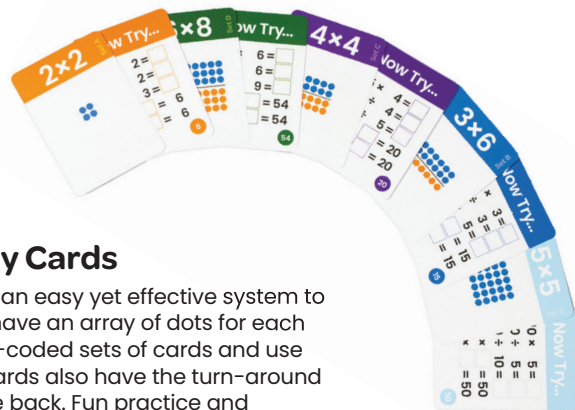

Frame and Base Ten Blocks 212022 • \$24.99

Multiplication Fact Fluency Cards

Multiplication Fact Fluency Cards are an easy yet effective system to learn multiplication facts. The cards have an array of dots for each fact. Students work through the color-coded sets of cards and use facts they know to learn new facts. Cards also have the turn-around facts and related division facts on the back. Fun practice and immediate feedback helps students master multiplication facts!

Grades 3-5. 212020 • \$14.99

Multiplication Fact Fluency Cards Classroom Edition

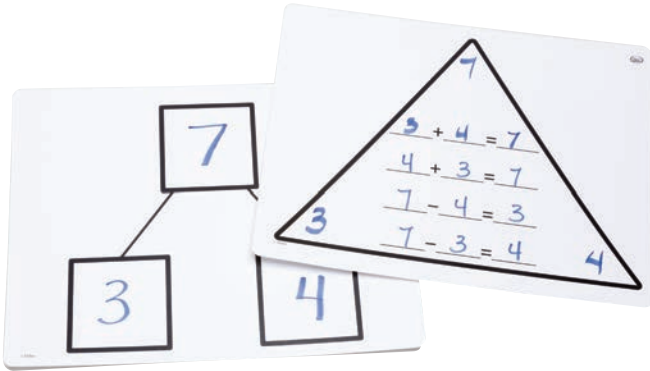

The Multiplication Fact Fluency Classroom Edition includes online access to comprehensive resources: a Teacher's Guide, multiple versions of assessments for each set of facts, timed slideshows of each fact set, and customizable Family Letters.

Set of 12 212023 • \$118.99

Write-On/Wipe-Off Fact Family Triangle Mats

Reinforce addition and multiplication with these sets of durable mats made of flexible plastic. For use with dry-erase markers, each mat is 9" x 12".

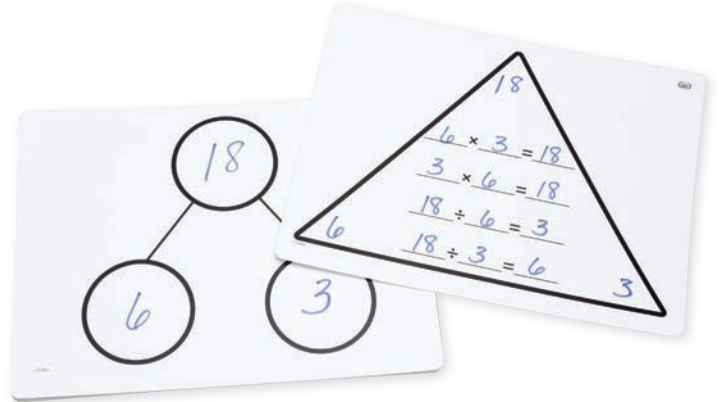

Addition

Each mat features an addition fact family triangle on one side and a number bond on the other.

Grades 1–3.

Set of 10

211763 • \$16.99

Multiplication

Each mat features a multiplication fact family triangle on one side and a factor diagram on the other.

Grades 2–4.

Operations & Fact Fluency

Same but Different

90 Visual Prompts for Math Discussion by Sue Looney

These colorful cards will inspire dynamic mathematical conversations. Using photographs, illustrations, equations, and more, each card features a content-rich image comparison. Ask students to explore the math by asking, "What is the same? What is different?" about the two images. Display the cards for whole-class instruction, set them up in centers, or use for small-group instruction. Each set includes three sets of 15 double-sided cards in each of the domains highlighted below plus an instruction card for a total of 46 cards. Each card measures 4" x 6".

Draw & Solve Word Problems

by Rob Madell and Laura Zoe Dombrowski

Drawing is a highly effective way for students to model and solve problems and to show their mathematical thinking at the same time. Each of the classroom-tested worksheets in these resources features a word problem along with plenty of space for students to draw the problem and work through their solution. Aligned to the standards, each book is organized by key types of problems for that grade level.

Grade 5. 211281 • \$16.99

Fractions are one of the most critical and, at the same time, most challenging concepts for students to master. Hands-on manipulatives provide a concrete way to develop a conceptual understanding of fractions. Here, you'll find everything from fraction circles and squares to fraction number lines, games and activities, and more!

Fraction Circles

Set includes one whole circle plus eight circles divided into halves, thirds, fourths, fifths, sixths, eighths, tenths, and twelfths. 3.5" in diameter.

△ Small Parts*

Plastic Fraction Circles

2-496 • \$9.99

Foam Fraction Circles

2-485 • \$4.99

Fraction Squares

Set includes one whole square plus eight squares divided into halves, thirds, fourths, fifths, sixths, eighths, tenths, and twelfths. Measures 6" x 6".

△ Small Parts*

Plastic Fraction Squares

2-495 • \$12.99

Foam Fraction Squares

2-484 • \$3.99

Magnetic Fraction Circles and Squares

Fraction Tiles

Decimal Tiles

These colorful magnets represent fractions and decimals in two different ways: circular to show groups and rectangular to show lengths as parts of a whole. Sets are color-coded so they can be used to show equivalences. Full circle measures 5" in diameter and full rectangular piece measures 8" in length. Each set includes 106 thick foam tiles.

△ Small parts*

Grades 2-5.

Magnetic Fraction Tiles

211306 • \$21.99

Magnetic Decimal Tiles

211308 • \$20.99

Fractions, Decimals, & Percents

Fraction Tile Number Line Set

These desktop-sized fraction tiles give students hands-on practice as they explore equivalence, ordering, and operations with fractions. The strips are intentionally not labeled so that students reason about the size. Designed to complement our Magnetic Fraction Number Line, each blank fraction tile features 55 color-coded foam pieces representing a whole, halves, fourths, eighths, sixteenths, thirds, sixths, fifths, and tenths; 10 each of three adhesive write-on/wipe-off number lines (1" x 16")—eighths, tenths, and twelfths. Teaching notes also included.

Grades 3–5.

Ten Student Sets

211761 • \$44.99

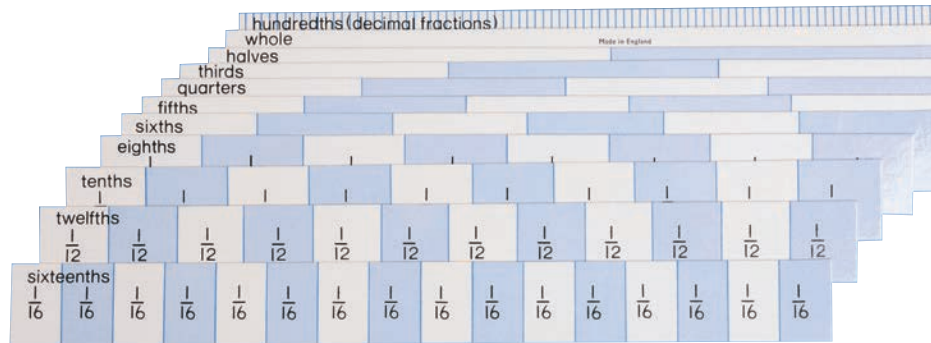

Comparative Fractions Strips

This set has eleven 10" x 1" laminated strips showing wholes, halves, thirds, quarters, fifths, sixths, eighths, tenths, twelfths, sixteenths, and decimals.

Write-On/Wipe-Off Fraction Number Line Mats

Each mat features three number lines marked in tenths, twelfths, and sixteenths on one side and three open number lines on the other. Mats are made of flexible plastic (9" x 12").

Set of 10 211769 • \$16.99

Fraction Number Line Flip Book

Your students will be “flipping” over fractions with this versatile write-on/wipe-off book. Students can use the 18 different fraction number lines featured in this book to solve a wide variety of fraction, decimal, and percent problems. Durable spiral-bound book is 4" x 12" and includes lines featuring thirds, quarters, fifths, eighths, tenths, twelfths, sixteenths, percents, as well as blank lines (single and dual). 20 pages.

Single Flip Book 211791 • \$8.99

Write-On/Wipe-Off Fraction Mats

Illustrate equivalent fractions or show addition and subtraction of fractions with these heavy vinyl mats (9" x 12"). Each mat has fraction circles or squares on one side and an open number line on the other.

Grades 3–4.
Set of 10 211584 • \$16.99

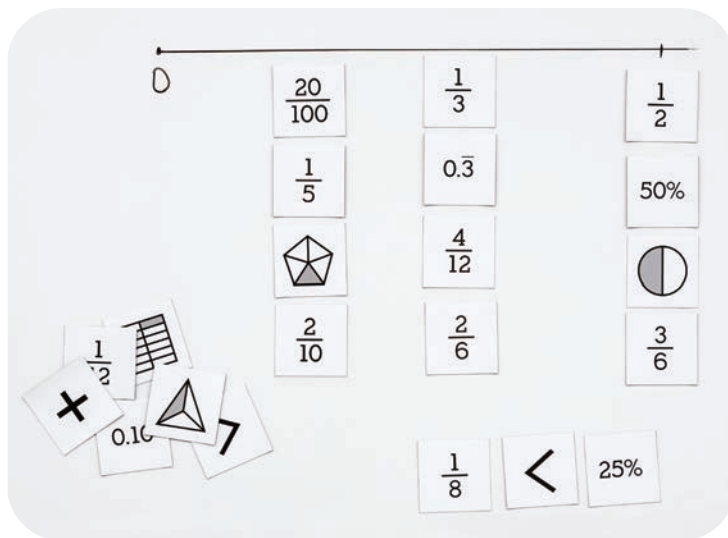

Working with Fraction Number Lines

The 30 activities and games in this book help students to visualize fraction concepts and develop fluency with fractions using number lines. Each game lists the relevant content and practice standards and can be played as a whole class, in small groups, or individually. Includes teacher notes. 168 pages.

Grades 3–5. 211207 • \$24.99

Fractions, Decimals, & Percents

Magnetic Equivalent Fractions

Use these 3" x 3" magnets as labels on a number line, for games, and for showing relationships between fractions. 56 pieces include fraction, decimal, percent, and pictorial depictions of fractions ranging from $\frac{1}{2}$ to 2, as well as five operation symbols.

Grades 2–5.

211035 • \$18.99

Elementary Fraction Kit for Grades 3–5

Includes hands-on manipulatives and three activity-packed resources full of teaching ideas.

- Fraction Squares, 3 sets
- Fraction Circles, 3 sets
- Write-On/Wipe-Off Fraction Mats, set of 10
- Magnetic Fraction Tiles
- Magnetic Equivalent Fractions
- Magnetic Fraction Number Line
- *Fractions Made Easy, Grade 3*
- *Fractions Made Easy, Grade 4*
- *Fraction Games & Activities with Dice!*

211897 • \$179.00

Seeing shapes, exploring their differences and their properties, along with building and deconstructing geometric figures gives students the opportunity to build visual perception and establish the foundation for the concepts and processes of geometry. Didax manipulatives connect tactile, visual, and spatial learning giving students a head start on more complex geometric concepts.

Geometry Stencils

Geometric stencils in six shapes and colors. Each stencil has six similar shapes in various positions and sizes to trace. Students develop fine motor skills and learn to distinguish geometric attributes. Ideal for home or school—design artwork, create patterns, model symmetry, and more!

Grades Pre-K-5.

Set of 6

Use all 5 tiles & score an extra 30 points!

Place a yellow tile on a +10 and earn 10 extra points!

Make sums of 10 with yellow tiles horizontally and vertically

2 WILD tiles included

Each Set Includes 3 Games!

Sum It Up! by Becky Duprey

These classroom-tested sets include everything you need to play three different games. In each game, players place tiles in a row on the board horizontally or vertically—just be sure they all add up to the target number for that game. Earn points based on the number of tiles you place; build in two directions or land on a +10 square to score even more! Children will love playing this challenging, fun game over and over again. Each set includes three game boards, three tile sets, three drawstrings bags for storage, rules, and score sheets. For 2–4 players.

Sums of 10, 20, and 100

Set includes three games.

- Sums of 10—Place pieces in a row to sum to 10.
- Sums of 20—Place pieces in a row to sum to 20.
- Sums of 100—Place pieces in a row to sum to 100.

Grades 1 and up.

Set of 3 Games 211880 • \$36.99

Sums of Fractions, Decimals, Integers

Set includes three games.

- Sums of Fractions—Place pieces in a row to sum to 1. Includes halves, quarters, eighths, and twelfths.
- Sums of Decimals—Place pieces in a row to sum to 1. Includes decimals from hundredths to ones.
- Sums of Integers—Place pieces in a row to sum to a target number. Includes integers from -9 to 9.

Grades 3 and up.

Set of 3 Games 211881 • \$36.99

Dice are fun! Choose from a variety of dice to play games that will engage your students and encourage collaboration in the classroom. Use basic dot and number dice for early math games; increase the challenge with polyhedra and double-dice. Place value and fraction dice provide even more possibilities!

Dice Games for Multiplication Mastery

66 Games to Improve Fact Fluency

By Mary Saitus and Chet Delani

Invite students to playfully compete with each other in these dice games of skill and chance. Designed to promote fluency in multiplication facts 2 through 12, these games reinforce number sense and the properties of multiplication. The set includes 33 double-sided cards for a total of 66 games. There are six different dice games included, with 11 variations for each game (each game includes a card focusing on a specific multiplication fact from 2 to 12). Instructions are included on each game card, making these ideal for use in small groups or stations. (Dice not included.)

Grades 3–5.

Dice

Dice Activities for Math

Activities feature one-, two-, and three-dice games involving addition and subtraction followed by more challenging halving and place value games. 96 pages.

Grades 1–3. 215295 • \$19.99

Dice Activities for Subtraction

Students meet the challenges of subtraction as they play hands-on dice games such as Bingo, Hidden Number, and Tic-Tac-Toe. Activities develop the concepts of minus (take away) and difference (comparison). 136 pages.

Grades 1–3. 211222 • \$19.99

Dice Activities for Multiplication

Engaging, fun activities reinforce number patterns while developing fluency with facts 2–12. Activities emphasize the commutative property and include probability and graphs. 110 pages.

Grades 3–6. 210907 • \$19.99

Dice Activities for Division

Get your students ready for fractions and pre-algebra concepts with these 20 different games for developing fluency with divisors, dividends, quotients, and remainders. Ideas to differentiate activities provide extra fun and a challenge for students who are ready for it. 112 pages.

Grades 4–6. 211334 • \$19.99

Dice Activities for Time and Money

More than 80 activities will show children how to tell time on an analog clock, calculate elapsed time, recognize coin names and values, make change, and represent money using the cents and dollar signs. 128 pages.

Grades 1–3. 211392 • \$19.99

Dice Activities for Algebraic Thinking

In this introduction to algebraic concepts, middle school students learn to use symbols to denote mathematical functions, use a variable to represent an unknown, write and solve simultaneous equations, and more. 136 pages.

Grades 5–8. 211396 • \$19.99

Dice Activities for Mathematical Thinking

Help your students develop fluency with the concepts of square number, square root, prime, factorial, summation, and positive and negative integers. 136 pages.

Grades 5–8. 211096 • \$19.99

Fraction Games & Activities with Dice!

With more than 70 dice activities, students use fraction bars, number lines, and competitive games (Tic-Tac-Toe, Four in a Row, Cross Over) to add, subtract, multiply, and divide fractions; recognize proper, improper, and mixed fractions; and work with equivalent fractions and inequalities. 128 pages.

Grades 3–5. 211187 • \$19.99

Spinners are versatile tools that make math more engaging. They are ideal for probability, but they are also useful for generating numerals to practice counting, fact fluency, comparison, operations, fractions, place value, and more. Cards are also a fun way to make groups, generate numbers, and provide targeted math practice for a variety of mathematical concepts in small groups.

Didax 0–20 Shape Playing Cards

These 84 versatile cards allow students to visualize numbers 0–20 and learn 4 basic shapes—circle, square, triangle, and diamond. Each card shows the number represented as a ten-frame using the shapes and supports mastery of foundational math skills. Cards come in separate sets of 0–10 and 11–20 to differentiate beginner and advanced play.

Grades Pre–K–5. 212026 • \$9.99

Middle & High School

Math Activators

by Heidi Sabnani and Molly Vokey

The ideal resource to practice, reinforce, or reteach fraction, decimal, and integer concepts.

Math Activators accelerate unfinished learning and build confidence with fraction, decimal, and integer concepts. This unique resource supports a variety of learners with manipulatives, engaging visual models, discussion, and reasoning.

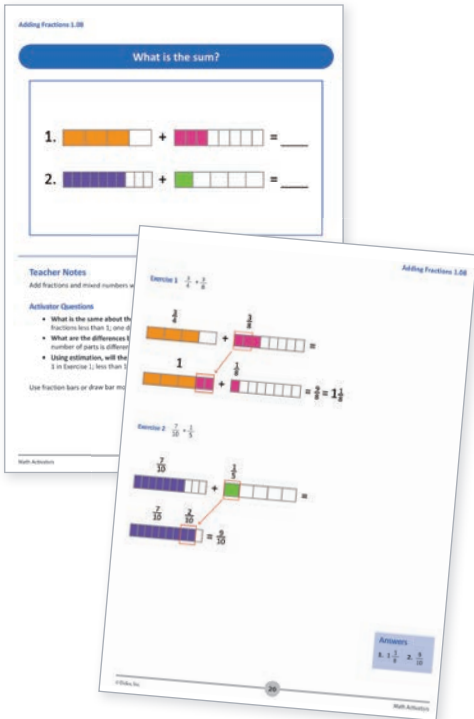

Students develop a deeper understanding of a concept by following a sequence of activators that starts with a concrete model and ends with abstract reasoning. In five to ten minutes, teachers can present the activator, allow time for student discussion (in pairs or small groups), and then facilitate a whole-class discussion.

212126 • \$34.99

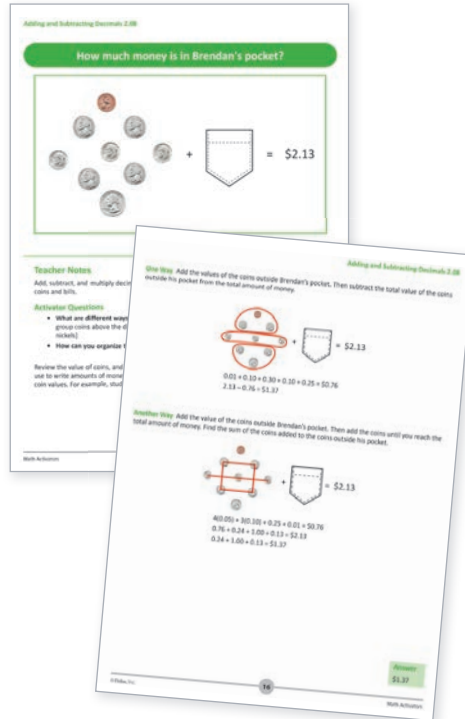

Included with the program:

- Teacher Guide with implementation guidance.
- 62 Activator Lessons (images for display, questions, and sample student work).
- Additional Activator exercise for practice, small-group work, or formative assessment.
- Digital access to images for display as well as teacher and student pages.

Middle School Resource Kit

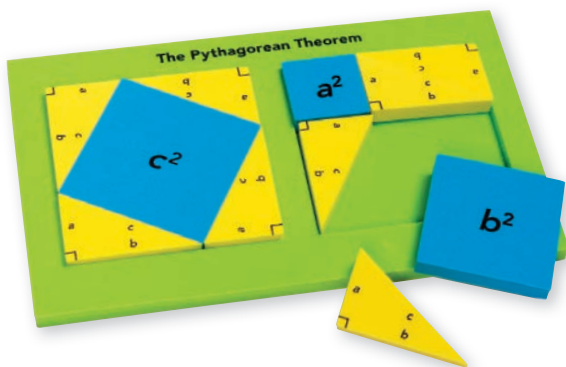

Middle school students will benefit from the hands-on resources included in this kit! Reinforce key concepts such as algebraic thinking, understanding of integers, Pythagorean Theorem, and more! Kit includes manipulatives, write-on/wipe-off mats, games, and two comprehensive activity books.

Kit Components:

- Algebraic Expression Dominoes
- Algebra Tiles, 10 sets
- *Working with Algebra Tiles*
- Linear Graphs Card Game
- Integer Operations Mats, set of 10
- *Working with Two-Color Counters*
- Two-Color Counters, set of 200
- Write-On/Wipe-Off Coordinate Grid Mats, set of 10
- Pythagorean Theorem Tile Set

Not packaged for retail.

Grades 5–8. 600033 • \$159.99

Pythagorean Theorem Tile Set

This puzzle gives students an opportunity to discover and visualize the reasoning behind one of the classic proofs by rearrangement for the Pythagorean Theorem. Includes frame (6" x 10"), 11 foam tiles, and teacher's guide with activities.

Grades 6–8. 211503 • \$8.99

Write-On/Wipe-Off Unit Circle Mats

A great way for students to practice evaluating trig functions, each mat features a unit circle showing all segments on one side and a circle with just x, y segments on the other side. Students can fill in radians, sine, cosine, and tangent using dry-erase markers (not included). Mats measure 9" x 12".

Grades 10–12.
Set of 10

211245 • \$16.99

Working with Two-Color Counters

Many advanced mathematics concepts can be modeled nicely with two-color counters. This activity resource provides teachers with proven techniques to help students better understand abstract mathematical concepts. Students use the counters to explore fractions, positive and negative numbers, equations, data analysis and probability concepts, and mathematical problems involving patterns and deductive reasoning. 96 pages.

Grades 5–8. 211336 • \$24.99

Integers

Integer Beaded Number Line Set

Developed by Dr. Alison J. Mello

Finally, a hands-on tool to help students discover the rules of integer operations! Beaded number lines are the perfect manipulative to model problems involving all four operations with integers. The set includes 10 student bead strings, with 20 negative red beads and 20 positive yellow beads per string. Twenty-five clothespins are also included for students to mark zero or other numbers on their number lines. Includes full-color guide.

Grades 6–9.

Set of 10

211882 • \$48.99

Integer Activity Kit

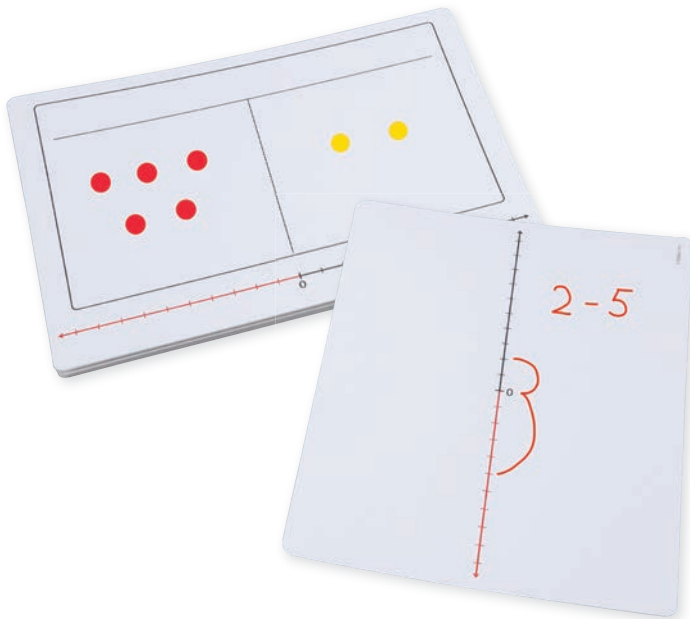

Give middle school students hands-on resources to help them master integer concepts. Our unique Integer Beaded Number Line Set provides a concrete tool to improve integer understanding. Also includes Integer Operations Mats that can be used with wipe-off markers or the included Two-Color Counters. The included resource book provides a variety of practice activities. Not packaged for retail.

Kit Components:

- Integer Beaded Number Line Set, 10 strings
- Integer Operations Mats, set of 10
- Two-Color Counters, set of 200
- *Working with Two-Color Counters*

Grades 6–9.

600031 • \$89.99

Integer Operations Mats

Hands-on write-on/wipe-off mats for visualizing operations with positive and negative numbers. Students model integer problems using red and yellow counters or writing on the mat. Use the space at the top to write the equation, and record the operations on the number line at the bottom. On the reverse, use the vertical number line to show negative and positive numbers. Set includes ten write-on/wipe-off mats and full-color activity guide. Mats measure 10" x 13".

Grades 6–9.

Set of 10

211883 • \$24.99

Integer Operations Activity Set

This set includes ten Integer Operations Mats, 200 Two-Color Counters, and an activity-packed book—*Working with Two-Color Counters*. Easily demonstrate integer operation problems on the mats with the two-color counters. Go to the book for a variety of integer activities, as well as problems that focus on fractions, equations, and probability—all using the counters. A great resource for all middle school classrooms.

Grades 5–9.

211891 • \$44.99

Manipulatives provide the visual and tactile experiences students need for modeling abstract algebraic concepts. In addition to algebra tiles, we offer the more sophisticated Algebra Lab Gear plus a variety of games and activities to support algebraic understanding.

Algebra Tiles Teaching Kit

Grades 6–12. 2-487 • \$3.99

Working with Algebra Tiles

by Don Balka and Laurie Boswell

Newly revised and updated for the current standards, this popular title is a complete resource for helping students visualize the algebraic process. Students model math problems with algebra tiles to build and solve equations and algebraic expressions. Activities cover integer operations, linear and quadratic expressions, perimeter, arrays, binomials and more. Includes complete teaching notes.

Grades 6–12. 211206 • \$24.99

Algebraic Expressions and Equations Dominoes

Our all-new foam dominoes give students a fun way to practice and reinforce key math concepts. Each game includes two sets of 24 color-coded dominoes (48 total pieces); each set is ideal for up to four players. Instructions included. Made of durable foam (3" x 1.5").

The problems in these sets focus on the 5th- and 6th-grade-level standards for algebraic expressions and equations. Ideal for any students needing additional practice.

Grades 5–6. 211241 • \$17.99

Algebra Lab Gear®

by Henri Picciotto

Algebra Lab Gear is a complete manipulative system designed for the teaching and learning of algebra. The Lab Gear extends the model of base ten blocks by adding “variable” blocks to represent x , y , xy , x^2 , y^2 , and more. The models are particularly helpful for visual and kinesthetic learners as students move the blocks to represent problems in different ways. The materials are designed for use in Pre-Algebra and Algebra I courses.

Grades 6–9.

Student Set (2 Students) 211544 • \$42.99

Student set components:

Yellow “number” blocks:

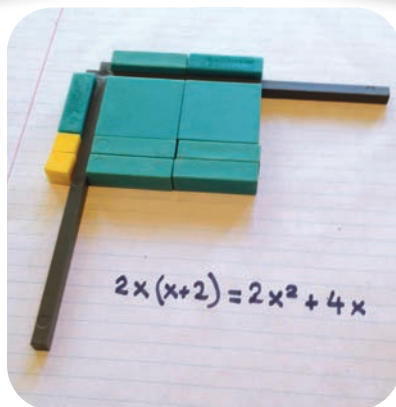

- 24 ones
- 8 fives
- 2 twenty-fives

Blue “variable” blocks:

- 18 x
- 4 $5x$
- 8 x^2
- 4 xy
- 8 y
- 2 $5y$
- 2 y^2
- 1 x^3
- 3 x^2y
- 3 xy^2
- 1 y^3

The Algebra Game

Collaborative Activities to Strengthen Understanding

These sets of The Algebra Game feature an improved design and updated teaching instructions aligned to the current math standards. The cards in each set display graphs, equations, coordinate pairs, and other specific information that, when used together, support the notation of an equation. Each set includes a comprehensive teacher's guide featuring activities and games using the cards, discussion questions, and reproducible activities. Up to 12 students can work collaboratively to form a multitude of algebraic equations in each area of study.

Grades 7–12.

Linear Graphs

Students make sense of linear equations by matching slope and y -intercept cards as they see how the distinct parts—graph, coordinate pair, slope, and y -intercept—fit together with equations. Use all decks together to provide a greater variety of parallel and perpendicular line pairs for extra practice or added challenge. Includes four decks (288 cards) and 72-page guide.

211753 • \$52.99

Quadratic Equations Basic

Students will discover the quadratic equation as they match the Basic cards with decks featuring factor, root, coordinate pair, and graphs. Includes four decks (288 cards) plus 72-page guide.

211754 • \$52.99

Linear Graphs Algebra Card Game

These collaborative activity cards include 12 matching sets of graph, equation, coordinate pairs, y -intercept, slope, and standard form cards. Students work collaboratively in groups to match their cards. Includes 90 game cards, instructions, and activity ideas.

Use alone or with our Algebra Game: Linear Graphs set (see above).

Wax Craft Sticks

With Wax Craft Sticks, students can create geometric shapes both simple and more complex, create patterns, and visualize basic operations like addition and subtraction.

Teachers are big fans because Wax Craft Sticks are flexible, easy to use, and mess-free!

Set of 11 211947 • \$9.99

Posing Open Ended Questions

This book is a collection of 15 open-ended mathematics activities designed to encourage children to develop their problem-solving and collaboration skills. 140 pages.

Grades K-2.

211464 • \$21.99

Vertical Learning

Setting up your classroom so collaborative groups can stand to solve problems on vertical surfaces around the room has been shown to be an effective strategy to boost student thinking, engagement, and math discourse.

Peter Liljedahl, in his book, *Building Thinking Classrooms in Mathematics*, asserts, "What emerged as optimal was to have the students standing and working on vertical, non-permanent surfaces . . ." Using vertical surfaces not only adds visibility into student thinking, but also encourages active participation, visual models, math discourse, and a deeper understanding of mathematical concepts.

Didax has curated a set of resources and magnetic manipulatives that are ideal for implementing this instructional strategy and insuring students are still able to use hands-on and visual tools.

Demonstration Magnetic Dry-Erase Coordinate Grids

These oversized write-on/wipe-off magnets make demonstrating graphing concepts a breeze! They stick firmly to any magnetic surface. The Coordinate Grid features the X-Y axis on a 20 x 20 grid with 1" squares.

Grades K-8 211758 • \$28.99

Slopeometer/Magnetic Dry-Erase Coordinate Grid Set

Set includes a Slopeometer as well as the Demonstration Magnetic Dry-Erase Coordinate Grid (shown above) to make drawing even easier!

Custom Kits: A Didax Specialty

The possibilities are endless.

Working with Didax, you can create custom kits filled with manipulatives and other resources to address specific curriculum needs, grade-level solutions, and specialized product collections to support a spectrum of educational and retail opportunities.

Our specialists can provide recommendations for product selection, quantities, packaging, and other kit design needs to meet your specific sales and distribution needs.

Take the next step... a conversation!

Work with your Didax Dealer Specialist to talk through your custom kit needs and project parameters, and we'll provide recommendations and project estimates. From there, we can collaborate to create the kits that will open new sales opportunities for you and deliver the solutions your education and retail customers need.

We look forward to talking with you.

Dealer Policies and Terms

Prices

All prices listed in the 2025 Didax catalog and price list are recommended US retail prices and are subject to change without notice. Prices are effective through December 31, 2025.

Back Orders

If stock is not available at time of shipment, the back-ordered item(s) will be shipped separately unless otherwise notified. All international orders will be shipped complete, and back orders will be canceled. We will notify you of any cancellation of back ordered product.

Discounts

Didax offers a 50% standard discount to our authorized dealers on Dealer merchandise only, with no minimum purchase. Please note that only items featured in this catalog and listed on the didaxdealer.com website are eligible for the discount.

Payment

Net 30 days from date of invoice. Past due accounts are subject to a 1.5% per month finance charge. Accounts must be current before subsequent shipments will be made. All foreign accounts (except for Canada) are required to prepay all orders.

Shipping and Handling

All shipments are F.O.B. shipping point. Shipping charges and handling cost are prepaid by us and added to your invoice using the most economical carrier unless you provide us with your own information. Next day shipments are available upon request for orders received before 1:00 pm eastern time.

New Accounts

Initial order from new accounts should be prepaid and include bank and trade references along with reseller's license and company information. Shipment on an open account is subject to credit approval. Reach out to info@didaxdealer.com to become an authorized dealer.

Returns

Special order items and items not purchased at standard discount are nonreturnable.

All returns must be pre-authorized and shipped with the packing slip marked with the RMA number.

Returned goods must be in our current catalog and in saleable condition, clean, unmarked, and undamaged.

Original sale must be within six months of request of return.

15% restocking fee will be applied to all returns.

A merchandise credit will be issued for the allowable return amount.

Unauthorized returns will be refused.

Discontinued items are nonreturnable.

Shortages and Damages

All shortages and damaged merchandise must be reported to Customer Service within 15 days of receipt of shipment.

For shortages, we will ship the missing item(s) or credit your account. For damages resulting from product defects, we will issue a credit or ship a replacement.

For goods showing visible damage on the shipping carton, please have the carrier note the damage on the freight bill before accepting delivery. Goods damaged in transit must be reported to the carrier immediately. Save all original shipping cartons, packing materials, and damaged items until they have been inspected or your claim has been settled. Please take pictures of damaged items, if possible, and forward to info@didaxdealer.com.

Resources

Orders or questions regarding orders/invoices can be sent to: orders@didaxdealer.com.

Multiplication Fact Fluency Cards Packs

- Visual approach using dot arrays.
- Develop strategies for each set of facts using known facts.
- Learn all related \times and \div equations together.
- Answer to fact on the back for immediate feedback.
- Learning one set of facts at a time builds confidence.

Multiplication Base Ten Frame

- Give students hands-on experience with 1- and 2-digit multiplication and division.
- Build conceptual understanding of partial product, partial quotients, or traditional algorithms.
- Use the frame and base ten flexible foam blocks to represent the factors as length and width, and the product as area.
- Includes a comprehensive Activity Guide.
